

Vastav India Steel Private Limited

Forging the Future of Steel Manufacturing in Bihar

About Us

Welcome to Vastav TMT, where innovation, strength, and reliability converge.

As a dynamic startup, Vastav India Steel Private Limited is transforming the steel manufacturing landscape in Bihar. Established under the visionary leadership of **Mr. Bharat Kumar**, our Chairman with over 15 years of expertise in the steel industry, we are setting new standards in quality and innovation.

Our flagship product, Vastav Thermax TMT Bars, embodies unmatched strength and durability, making us a trusted partner for builders, developers, and infrastructure projects across the region.

Our tagline, "**Vastav Mein Dum Hai**," reflects our commitment to delivering products that withstand the test of time.

Vision

To emerge as a leading steel manufacturer recognized for exceptional quality, relentless innovation, and significant contributions to infrastructure development in Bihar and beyond.

Mission

To empower the construction industry by delivering premium TMT bars that ensure strength, reliability, and safety for durable, long-lasting structures.

Chairman's Message

Dear Valued Stakeholders,

At Vastav TMT, our journey is fueled by the vision of redefining steel manufacturing with a focus on quality, innovation, and trust. Each TMT bar we create symbolizes not just a product but a foundation for dreams, progress, and growth.

Our commitment is to bolster Bihar's infrastructure with advanced technology and uncompromising quality. With your trust and support, we aim to establish new benchmarks in the steel industry and build a brighter, stronger future.

Warm regards,

Bharat Kumar

Chairman, Vastav India Steel Private Limited

Leadership

Bharat Kumar

Chairman

A stalwart of the steel industry with over 15 years of experience, Bharat Kumar is the driving force behind Vastav TMT's success, leading with vision and expertise.

Reyaz Alam

Business Head

An expert in business development, Reyaz ensures Vastav TMT achieves strategic growth and operational efficiency.

Nitu Devi

Director

Appointed as Director on **9th February 2024**, Nitu Devi plays a pivotal role in strengthening client relationships and spearheading business development. Her leadership is vital in driving the company's vision and ensuring steady growth in a competitive steel market.

Philosophy

At Vastav TMT, we believe in:

- **Innovation:** Continuously evolving to deliver superior products.
- **Sustainability:** Minimizing environmental impact through responsible practices.
- **Customer-Centricity:** Tailoring solutions to meet unique construction needs.

Our Products

Vastav Thermax TMT Bars

Designed for superior performance and adherence to the highest standards, Vastav TMT Bars are ideal for a wide range of construction applications.

Key Variants:

- **8mm:** Perfect for small-scale projects.
- **10mm:** Best suited for medium-strength applications.
- **25mm:** Engineered for heavy-load structures.

Product Features:

- High tensile strength
- Corrosion resistance
- Excellent weldability
- Earthquake resilience
- Compliance with BIS Standards (IS 1786:2008)

Business Model

1. **Production Excellence:** Leveraging state-of-the-art manufacturing techniques to ensure high-grade products.
2. **Customer-Centric Approach:** Dedicated to meeting diverse construction needs.
3. **Strategic Distribution Network:** Ensuring timely delivery through a robust dealer network.
4. **Sustainability Practices:** Commitment to eco-friendly manufacturing processes.
5. **Continuous Innovation:** Integrating advanced technologies for product enhancement.

Infrastructure

Our manufacturing facility, operated by **J G Foundry Limited** in **Didarganj, Patna City, Bihar**, is equipped with:

- **Advanced Spectrometers**
- **Digital Universal Testers**
- **High-Capacity Production Units**

These ensure that every TMT bar meets stringent quality standards for performance and reliability.

Achievements

- Established a trusted dealer network across Bihar within one year.
 - **Supplied over 500 metric tons of TMT bars for critical infrastructure projects.**
-

Why Choose Vastav TMT?

- **Cutting-Edge Technology:** Ensures product consistency and reliability.
 - **Experienced Leadership:** Guided by seasoned professionals with a track record of excellence.
 - **Sustainability Focus:** Promoting environmentally responsible practices.
 - **Customer Satisfaction:** Building long-term relationships through trust and quality.
